The REAL MEANING of Education

Mr. Brij Mohan

Mr. Shyam Mohan
Gupta

Mr. ManMohan
Gupta

Mr. Sandeep
Mehta

Dear Students & Friends

As students, you all know about the competition that exists in today's world and how preparation is becoming more and more methodological. Success is not only determined by hard work but also by right guidance. Your teachers and parents would be providing you the necessary guidance timely, we would also like to share the "Mantras of Real Education" in your life.

"Education is to help you realize your own potential rather than imitating others" It is very important for you to decide your career option and this should solely be made by you, understanding your interests and keeping in view the suggestions and experience of your respected parents and elders.

"Without hard work, nothing grows but weeds" You have to put in the organized effort, blended with passion and enthusiasm. Since competition is already high, you need to put in at least 2-3 hours of study on a school day while 8 hours of study on a holiday.

"Education is to make you more joyful; not to make you stressful and jealous" When you make the right choice, you naturally give your heart and soul to your mission and this will bring happiness and joy in your life. You have to realize that competition from peers has to be taken up in a healthy way. This will bring the best in you rather than making you jealous of them. You should compete with yourself, not with others. The way to conquer the competition is simply dedicated effort from your body and soul.

"Success and failure are relative and time bound" During your course of preparation, you will experience success as well as encounter failure. Failures have to be taken up as an opportunity to improve and not as a reason for getting irritated and frustrated. This will deviate you from your mission and will dilute your efforts made till date. Only when you conquer your fear of failure, success would become inevitable.

"The real meaning of Education" Education does not mean just to collect information and knowledge and be successful in your career but to understand its real application to make the world a beautiful place for everyone, be it nature, living or non-living beings.

You all are founding pillars of our nation and your efforts will determine where we all stand in the near future. We sincerely request all youngsters to ponder over the above points. Hope this would help you in realizing your dreams and goals.

We pray to the Almighty for your success and cheerfulness throughout your life.

Best regards

Brij Mohan, Shyam Mohan, Man Mohan and Sandeep

TRADITION OF SUCCESS

TRADITION OF SUCCESS

Vidyamandir...

Guiding students and setting the standards for learning for more than three decades

Over the years, the name **Vidyamandir Classes (VMC) has become synonymous with success in JEE Advanced, JEE Main, NEET & other Engineering & Medical entrance exams.**

Vidyamandir has not only designed, delivered, innovated and perfected the art of teaching, but has also guided its students eventually helping them to realise their dream career.

With each passing year, the number of candidates appearing for JEE Advanced, JEE Main & other Engineering entrance exams like BITSAT, VITEEE increases against the available intake, thereby increasing the already fierce competition. Succeeding in such competitive environment requires planned preparation and strategy, through proper guidance and mentoring by experts in the arena.

We, at Vidyamandir Classes work with the students, carefully understanding their abilities and Subject knowledge, and then teach them to bring them to the required level where they can outshine their peers and realise their dream. VMC believes in following and imparting the "Real meaning of education", as outlined by our Founders and provides an environment to all our students which not only help them learn well but also inspire them to recognise and explore their own potential.

All the Founders of VMC are Ex-IITians, who are pioneers in the JEE Test prep space and have mentored & helped thousands of students realise their dream of getting into the IITs and other Top Engineering colleges in India. **Till date, all the founders teach and are actively involved in the day to day activities of Academics and Operations.**

The fact that more than 54,000 students appeared for the VMC National Admission cum Scholarship tests for limited seats on offer in the last Academic session 2018-2019 is ample testimony to VMC's popularity and credence within the JEE aspirant's community.

Vidyamandir Classes started over as a small institute in 1986, with a very limited intake and with a vision to ensure all its students make it to the IITs. Credited with many "FIRSTS" in the Test prep space, VMC increased its capacity in the Founders course very optimistically, from 11 in the first batch till around 250 as on date, ensuring that it maintains quality and personal attention. Newer courses and centres were added timely, but only after it was properly ensured that VMC lives up to its standards and commitment of personal attention and proper learning environment.

The Founders and management of Vidyamandir Classes have always held to the fact that growth is important, but only when you can live up to the standards set for education.

This is the reason Vidyamandir Classes grows optimally so as to carry our legacy of commitment and pride ourselves in not being an Assembly line of education.

Vidyamandir Classes offers a complete range of courses to students based on their location and requirements. All courses are based on the time tested teaching methodology which has been perfected by VMC and which has produced unmatched results in IITJEE consistently for more than 30 years. For a complete list of courses being offered at VMC, please refer to the Contents section at the beginning of this brochure.

Vidyamandir is credited with formalizing the IITJEE entrance coaching and bringing about many "FIRSTS" in this education segment, the innovations which others follow....

1990

In 1990, VMC was the first IIT-JEE coaching institute to introduce an admission and talent screening test for prospective students.

1992

In 1992, VMC took the lead in recognizing the need for organized and comprehensive study material, which was perfectly synchronized with the classroom sessions and was the first institute to introduce completely cohesive and scientifically designed course material for its students.

1995

In 1995, VMC introduced a unique course called The Final Step (FS) which was a revision course for IIT-JEE preparation. This Course was intended to provide a comprehensive revision, just before the final exam. Subsequently this course has been merged with our two year Regular Classroom Course.

2007

VMC was the first IIT-JEE coaching institute to introduce computer based feedback and analysis to students based on their performance in tests conducted by VMC. In 2007, VMC introduced online assessment for its students. The VMC online testing platform is to this day, one of the most advanced, unique and effective assessment platform available in the country.

2008

In 2008, VMC introduced a unique Correspondence Course which is for the first time in India, combined High Quality Printed Study Material, Online Tests, Automated Analysis & Benchmarking of student's performance and online doubt clearing functionalities.

2011

VMC introduces the School Integrated Program in 2011.

2015

In 2015, VMC started VSAT classroom courses.

2017

In 2017, VMC introduced Online courses cum self-study packages.

VMC PEDAGOGY

For JEE Courses

PEDAGOGY

STUDY MATERIAL

In 1992, VMC recognised the need for organized and comprehensive study material, which was perfectly synchronized with the classroom sessions. Thus VMC became first institute to introduce completely cohesive and scientifically designed course material for its students.

VMC provides a comprehensive set of study material to all its students, which is scientifically prepared to ensure comprehension of even the most difficult topics. It includes well designed layouts, innovative explanations, simple examples and other research-proven techniques of study material presentation. Each key concept is explained using carefully chosen questions with stepwise solution, which explains the core application of the concept.

The study material at VMC is revised every year and covers every aspect of each topic, making it completely self-sufficient. So much is our confidence in our study material, that we consciously ask our students to rely solely on VMC material, and not consult any other book or guide. We regularly upgrade our course material with appropriate modifications to meet the changing pattern and syllabus of the IITJEE every year.

The Study material primarily consists of Modules and Workbooks. Modules are designed to cover the Theory portion of JEE Advanced and JEE Main, as per the latest pattern and syllabus of each year. Workbooks are provided to assist preparation for Boards/School & other Engineering entrance exams.

Modules form the primary part of the VMC Study material and each module is divided into chapters. Each chapter is then further divided into two sections, as explained here:-

DETAILED THEORY PORTION

This part explains the core concepts in a very simple and easy manner with the help of illustrations and helps in building a strong foundation for the students.

SOLVED EXAMPLES & IN-CHAPTER EXERCISES

This part illustrates the applicability of the theoretical concepts. Accurate and thorough explanations are provided to ensure students internalize the core concepts. Each step in the solved examples is carefully and systematically explained, to show students how to attempt a particular problem.

SCHOOL/BOARD NOTES

Exhaustive notes on Economics, English and Computer Science are provided to students to help them in their schools in Class XI and XII, besides notes on Chemistry, Physics and Maths.

OTHER ENGG. ENTRANCE EXAMS MATERIAL

A comprehensive set of Previous year exams and Practice papers is provided to students for various exams like BITSAT, VITEEE and the like, to make sure all our students land up in great colleges.

FINAL STEP

Intended to provide a comprehensive revision just before the final exam and designed carefully by the founders of VMC, this section includes Revision package for JEE Main & JEE Advanced, Home Practice tests & Test series for JEE Main & JEE Advanced, All India Mock tests & Videos of discussion of tests conducted.

WORKBOOKS

VMC was the first to introduce completely cohesive and scientifically designed course material (Modules) for its students. Recently, it has developed a new concept called "Workbooks". In this newly introduced "Workbooks", the conceptualisation and designing has been done in such a way that the student practices more and more to master the art of perfection as we at VMC firmly believe that "Practice Brings Perfection".

In VMC, we follow a simple philosophy, where students are expected to study the basic concepts on their own before coming to the class. The teacher then takes the concepts in detail and also gives homework to practice problems from the workbook. The exercises of these workbooks have been

prepared chapter wise. Each chapter consists of various levels of Daily Tutorial Sheets (DTS) based on degree of difficulty. Numerous new questions have also been added in each chapter of the workbook for more enhanced practice.

CLASSROOM SESSION

At Vidyamandir, teaching is not merely a profession. It is a dedication to help students succeed in JEE Advanced, JEE Main and other engineering exams, and also to create a passion for scientific discovery and logical thinking which would help them succeed in all aspects of life.

The academics at VMC are powered by the Founders themselves, together with a 200+ team of highly qualified JEE experts, who are typically ex-IITians and icons of the

industry. No doubt, a few minutes of classroom coaching at Vidyamandir is equivalent to hours of self-study required by the students otherwise. Difficult concepts are presented in such a form that students find them very simple and easy to comprehend.

Classroom sessions are complemented and synchronised with the study material, which in itself is self-complemented and complete in every aspect.

TEST SERIES

The very nature of JEE Advanced, JEE Main or any other Engineering entrance exam is such that it demands perfect performance on the D-day. No matter how well you prepare, you need to give your best shot on the Exam day. Leaving nothing to chance, VMC takes its students through multiple exams, in exact Mock conditions to ensure the students don't get psyched out by anything on the D-day. Objective exams have one thing peculiar, "Approach to attempt". There are questions meant to be left and questions meant to be attempted. To this, there is also a

way to attempt, unique to every individual. To help VMCIans, various Test patterns on different formats and levels are given to the students to make sure they develop their own Test taking approach and pull the maximum scores.

Multiple categories of tests viz Class tests, Online tests, Chapter tests, HRTs, JEE-Main, JEE-Advanced, BITSAT, VITEEE & others are provided to the students during their course. The Testing and Analytics part is handled by Vidyamandir's TEST ENGINE, which was started in 2007 and is one of the most powerful & comprehensive Testing platforms in the country.

VMC eLEARNING SYSTEM

VMC's e-learning system is a state of the art platform, which empowers learning over the Web and Android Apps. It allows delivery of content through Ebooks, Videos, Exercises and Tests, and allows students to learn "On the Go"(works without internet). The e-learning system helps students in knowing the Topics where they are weak and need to concentrate their learning. It also

helps them revise on their own, anytime, anywhere using the huge bank of questions VMC has developed over the years.

The system helps teachers focus their teaching and delivery, by assessing the student's learning curve and suggesting topics where students are not performing optimally. In addition, it allows students and teachers to be in touch all around the clock, through Discussion rooms in the Apps.

In addition to assisting the students and teachers, the system also provides Apps for parents, which can be readily used to analyse the performance of their wards and get in touch with teachers, if required.

The e-learning system has an integrated Testing and Analytics engine, which is one of the most powerful assessment engines in the country. This engine takes the students through multiple tests, to ensure that all students can face the various combinations possible in the pattern of the examination, and develop their own Test taking approach to excel in the final exam.

JEE 2021 REGULAR CLASSROOM COURSE

For 12th Pass Students

DURATION

May/June 2020 to April 2021

The One Year Course offered by VMC is an extensive course for students who have completed their Class XII and have decided to appear for the IITJEE 2021. Given the fact that the student is left with only one year to prepare for IITJEE, this

one year course is compact yet rigorous, and helps students take the exam with full confidence.

The course covers topics relevant from Class XI & XII syllabus that are important from the IITJEE perspective. First the fundamentals and then application of fundamentals is taught so that the student can face the more difficult topics with ease. The course is designed to reinforce the core concepts and give sufficient problem solving practice to its students.

COURSE STRUCTURE

INNOVATIVE ONE-YEAR COURSE

Where the CBSE curriculum is moderate in its difficulty level, IIT-JEE has set high standards of conceptual questions. This course bridges the gap between CBSE and IIT-JEE and is specifically designed for students who wish to opt for engineering as a career. The course begins with building basics, then gradually scaling to higher difficulty and then adequately practicing questions through exercises and tests, which cover both objective and subjective patterns. This is done to put to rest, the uncertainty of change in exam format. The methodology used trains our students to face IIT-JEE comfortably and succeed.

COMPREHENSIVE SYLLABUS COVERAGE & PRACTICE

The course ensures coverage and revision of the entire IITJEE syllabus which includes strengthening required for concepts and fundamentals. In addition, rigorous practice is provided to master the IITJEE test taking strategy.

CONDUCTIVE ENVIRONMENT TO MATCH GOOD TRAINING

All classes are held in our ultra-modern, well-lit, air-conditioned classrooms where the environment is optimized for balancing comfort and concentration, ensuring very high levels of efficiency in learning.

ALL INDIA TEST SERIES

The feedback of the course is in the form of Test Series held at regular intervals. These Test Series are held at multiple Test Centers providing a real Exam-like experience to the students. Detailed analysis of these tests will be provided to the students so that they can judge their performance relative to the other Vidyamandir students.

CLASS TESTS

Class Tests & Chapter Tests are held regularly in class to assess the understanding of a topic by the students. Many of these are in the form of Surprise Quizzes, so that students are motivated to be regular in their preparation. In addition, a number of chapter based practice tests are offered in online mode.

JEE 2021 REGULAR CLASSROOM COURSE

The One Year Course offered by VMC is an extensive course for students who are currently in Class XII and would be appearing for the IITJEE 2021. Given the fact that the student is left with only one year to prepare for IITJEE, this

one year course is compact yet rigorous, and helps students take the exam with full confidence.

The Course first builds on the Class XII Curriculum, followed by a quick revision module of the important concepts of Class XI. The course then builds on IITJEE specific modules and extensive testing, evaluation and analysis.

The course is designed to reinforce the core concepts and give sufficient problem solving practice to its students.

DURATION

April 2020 to Mar 2021

COURSE STRUCTURE

Phase 1 ▶ The First Stage focuses on the important and difficult topics of Class XII which are often the source of confusion and subsequent mistakes. The emphasis is to create visualization for these concepts using multimedia, models, real life examples etc, so that these critical concepts can be applied to real exam problems more effectively. Periodic testing through Class Tests and Unit Tests help the students in evaluating and benchmarking their understanding.

Phase 2 ▶ The Second Stage begins around October and the emphasis shifts to covering the Class XI topics and on continuous testing. The focus of this stage is to build confidence and motivate the students to give their best shot in the remaining three months before the main exams. Sessions on motivation, time management, exam - taking strategies are also conducted by experts in this stage.

Phase 3 ▶ In the Third Stage, once the syllabus is finished, rigorous testing is done so that the students gain speed as well as accuracy while attempting the question paper and imbibe the art of converting knowledge into marks.

Besides Classroom Session and comprehensive Course Material, Online Test Series will be provided to students. This will help in assessing and improving their performance, besides introducing them to the pattern of the competitive examinations.

JEE 2022 ILLUMINATI CLASSROOM COURSE

Started in 2017

Vidyamandir Classes has always believed in working on all the students and making their dream come true by mentoring them and guiding them on the correct path. Segregation into Founders Batch and Super Batch was done to form separate groups of students based on their respective abilities and then take them on separate paths to make sure both groups separately embark on their journey. In 2017, VMC introduced a new course called "Illuminati". Illuminati course is an initiative taken by Vidyamandir Classes for Top Rankers which is created around a year after the Classroom course starts. In the Illuminati course,

Top 70-80 students of VMC, irrespective of their current courses (Founders X, Founders Classroom Course {SuperX & Super Batch}), are shortlisted and their accelerated preparation for JEE Advanced and JEE Main exams starts.

All the classes in the course are conducted by the three founders of VMC, alongwith their Core team who have been teaching and producing some of the best results in India for more than 30 years (since 1986). This course is conducted in our NSP/ Pitampura centre.

All students in this course are bound to excel in some of the most competitive exams for Engineering entrance in the world. Selection in this course is exclusively based on merit secured in the internal tests of VMC.

— 100% —
SELECTION
IN JEE ADVANCED 2019

KEY FEATURES OF THE COURSE

EXCLUSIVE CONTENT

The content for this course has been designed by the Founders of VMC, reaped from their three decades of experience. The content is supremely selective, from the various Workshops, International and National books and other preparatory material available in the JEE Test prep industry.

SPECIAL WORKSHOPS

Specialised workshops are conducted for students in the course, to move them up the ladder of hard work and effort. These workshops have concentrated sessions on problem solving, concepts and fundamental applications to problems, which are core of the JEE Advanced and JEE Main exams.

APT (ADVANCED PRACTICE TESTS)

This is the basis of Score improvement by building the Test taking approach and Examination-hall-temperament, apart from the regular VMC Test series. The level of questions in APTs outperform the level of questions which are asked in real JEE Advanced exams, so that the students can develop high order thinking and can crack the papers with ease.

MENTORED BY THE FOUNDERS

The Founders of Vidyamandir mentor and teach the students of Illuminati course, along with their Core team (who are one of the best faculties in the JEE Test prep industry) and bring them up to the level where they are equipped to outperform some of the best brains in the world.

UNMATCHED PEER GROUP

The peer group in the course is the best 70-80 in VMC. Selection in the course is a testimony of success but this course is for those who look for nothing but the Top ranks.

OPEN FOR ALL VMC STUDENTS

Any VMC student across any VMC center stand an equal chance of making it to the Illuminati batch. Selection is purely on the basis of merit in the internal tests of VMC.

JEE 2022 FOUNDERS' X & FOUNDERS' COURSE

DURATION

April 2020 to Mar 2022

Founders' course is the flagship course of VMC, which has

consistently achieved a success rate of more than 60% in IIT Selections.

The course is a two-year rigorous course, in which all classes are conducted by the three founders of VMC, along with their Core team who have been teaching and producing some of the best results in India for more than 30 years (since 1986). This course is conducted at our Pitampura Centre, New Delhi. All students of this course are bound to excel in JEE Advanced, JEE Main and other competitive exams for Engineering entrance.

COURSE OBJECTIVES

The Founders' course is a comprehensive course, designed to inculcate the habit of internalizing concepts at an early stage, to enable students to apply them at will in both real life problems as well as in exams. Spread over a span of two years, this course is designed to help students transit smoothly through the course and build a strong foundation for Mathematics, Chemistry and Physics. More so, it guides the students right upto the level of JEE Advanced and nurtures them for complex questions, as it is based on a pedagogical philosophy of conceptual clarity leading to structured thinking, further leading to logical problem solving.

Founders X is the exclusive batch of TOP 50-60 students of the Founders' course, which is an accelerated and fast paced course and all students are offered concession in fee on the basis of their performance in the National Admission Test (NAT).

KEY FEATURES

Excellent Content - The content for this course has been designed by the Founders of VMC, reaped from their three decades of experience. The content is supremely selective, from the various Workshops, International and National books and other preparatory material available in the JEE Test prep industry.

Workshops - Specialised workshops are conducted for students in the course, to move up the ladder of hard work and effort. These workshops have concentrated sessions on problem solving, concepts and fundamentals applications to problems, which are core of the JEE Advanced and JEE Main exams.

APT (Advanced Practice Tests) - This is the basis of score improvement by building the test taking approach and Examination-hall-temperament, apart from the regular VMC Test series. The level of questions in APTs outperform the level of questions which are asked in

real JEE Advanced exam, so that the students can develop high order thinking and can crack the papers with ease.

Mentored by the Founders - The Founders of Vidyamandir teach the students of Founders' course, alongwith their Core team and bring them up to the level where they can crack some of the toughest exams like JEE Advanced, JEE Main and other Engineering entrance exams easily.

Peer group - The peer group in the course is some of the best brains of VMC. This exposes the student to the most healthy competition, where they get motivated by hard work and success.

Concession in Fee - Each student in the course is offered concession in fee on the basis of his/her performance in the National Admission Test of Vidyamandir Classes, to recognise the hard work and effort put by the student.

JEE 2022 CLASSROOM COURSE SUPERX & SUPER BATCH

DURATION April 2020 to Mar 2022

The **SuperX** batch is formed at each VMC centre and represents select small group of students, who are given extensive training to get top ranks in IIT-JEE 2022. The pace and progress of the SuperX course is higher as compared to the other classroom courses due to its very nature and peer group in the course.

KEY FEATURES

CONTENT BY THE FOUNDERS

The content for this course has been designed by the Founders of VMC, who have years of experience in the JEE Test prep industry and who are famous for churning Top rankers in JEE Advanced and JEE Main, year after year.

EXCELLENT TEACHERS

All classes are conducted by a team of highly experienced faculty (mostly IITians and ex-VMC students) who teach under the guidance of Vidyamandir's Founders.

PEER GROUP

The peer group in the course consists of some of the best students competing for Engineering entrance exams. This exposes the student to healthy competition, where they get motivated by hard work and success.

SAME PEDAGOGY AS FOUNDERS

The Classroom Course (Super Batch) follows the exact pedagogy and quality of facilities as are offered to our

Founders' Batch students. The course comprises of a thoroughly comprehensive package which combines all the three parts of VMC's time tested strategy that has been producing IIT-JEE Rankers for more than 25 years; the parts being Phase-I (Class XI), Phase-II (Class XII) and The Final Step (The Revision course).

STUDY MATERIAL

The Study Material, Tests, Test Series, Feedback and other facilities which are offered to Founders' Batch students will be extended as it is to the Classroom Course (Super Batch) students. The Super Batch students appear for the same Class Tests and Test Series as our Founders' Batch students and will get their performance analysis as well as relative ranking across all students enrolled in Vidyamandir Classes for IIT-JEE Courses.

LIMITED BATCH SIZE

The classes will be held in small groups providing personal attention to students, in state of the art classrooms to ensure conducive learning environment for our students.

The **CLASSROOM COURSE (Super Batch)**, earlier known as the Extended Classroom Course (ECC) was the second course to start in VMC, after the Founders course. Started in 2006, the course has become one of the most sought after course for Engineering aspirants. The results of the course have been very heartening and bear testimony to VMC's commitment to giving the best possible guidance and learning environment to its students. The course is a two-year rigorous course, in which all **classes are conducted by the Faculties trained by the founders, who have been teaching and producing some of the best results in India** for a long time. This course is conducted in all VMC centres.

COURSE OBJECTIVES

The Classroom course (Super Batch) is designed to explain concepts and fundamentals in a way which is easy to comprehend by the students. Post this, application of concepts to practical situations and to complex problems is introduced, followed by Tests and discussion. Spread over a span of two years, this course is designed to help students transit smoothly through the course and build a strong foundation for their basic subjects of Mathematics, Chemistry and Physics. More so, the course covers School to JEE Main to JEE Advanced & other Engineering exams to make sure the student is geared up to ace any exam.

NEW

PLAN OF ACTION FOR CLASS XI

The two-year IIT JEE course will be divided into marking periods. Each marking period will cover specific chapters and will have a certain number of tests to evaluate the learning and progress.

Each marking period will have four different types of All India Tests:

- Monthly Online Tests (MOTs)
- JEE Main Exam (in both online and offline mode)

- Advanced Booster Test (in both online & offline mode)
- JEE Advanced Exam

As per the requirements, there may be some additional tests, the details of which shall be provided to the students. Looking at the current testing system, with all important exams being conducted in online mode, a major emphasis will be on online testing. The students will be able to take these online tests at home, through our portal or app.

MARKING PERIODS - JEE 2022 (Class XI)

The two year JEE-2022 course has been divided into Marking Periods (MPs). In Class XI, we will have four marking periods. The sample plan of first two MPs is shared below.

	Marking Period - 1	Marking Period - 2
MP Weeks	10	13
Physics	Vectors & Forces, Kinematics of a Particle, Motion in 2D (Till Section 2)	Motion in 2D, Dynamics of a Particle, Energy & Momentum, Rotation (Till Section-2)
Chemistry	Stoichiometry, Atomic Structure, Periodic Classification & Chemical Bonding-I	Chemical Bonding-II, States of Matter, Thermochemistry & Thermodynamics, Chemical & Ionic Equilibrium
Mathematics	Quadratic Equations, Trigonometry, Sequence & Series	Complex Numbers, Permutations & Combinations, Binomial Theorem, Straight Lines
Monthly Online Test (MOT)	MOT-1 Quadratic Equations, Vectors & Forces Stoichiometry - I MOT-2 Trigonometry, Kinematics, Atomic Structure	MOT-3 Complex Number, Motion in 2D, Dynamics [Till Section-2], Chemical Bonding & States of Matter MOT-4 Permutations & Combinations, Dynamics, Thermochemistry & Thermodynamics MOT-5 Binomial Theorem, Energy & Momentum, Chemical Equilibrium
JEE Main	Main-1 All topics covered in Marking Period-1	Main-2 All topics covered in Marking Period-2
Advanced Booster	Advanced Booster-1 All topics covered in Marking Period-1	Advanced Booster-2 All topics covered in Marking Period-2
JEE Advanced	JEE Advanced-1 All topics covered in Marking Period-1	JEE Advanced-2 All topics covered in Marking Period-2

MARKING PERIOD Ends

JEE 2022 SCHOOL INTEGRATED PROGRAM

DURATION April 2020 to Mar 2022

The School Integrated Program is the course which was initiated in the year 2011 and it provides best of both the worlds,

complete preparation of School/Boards together with JEE Advanced, JEE Main & other Engineering entrance exams,

all by the teachers of VMC in its associated schools. This saves the time spent twice over the same topic, one in the school and the other in the Coaching center. It also aligns the syllabus with your school, to make sure everything goes synchronised. The three primary subjects to be tested viz Physics, Chemistry and Math are handled by the teachers of Vidyamandir Classes, the rest two are taken care of by the School teachers. The power of the program also lies in the fact that it leaves the weekends of the students for self-study and homework given by VMC and School teachers, and also saves the precious Travel time from home to Coaching center.

COURSE STRUCTURE

- ▶ Program covered in 6 phases
- ▶ Single program, comprehensive Study material with necessary Supplements
- ▶ Common tests across all centres of VMC
- ▶ Mock Board Test papers
- ▶ Regular Test series (TS) for developing Exam temperament and Test taking approach
- ▶ Regular Feedback sessions
- ▶ Dedicated Operations Team for anytime feedback, in addition to periodic PTMs

CLASS FREQUENCY & SCHEDULE

Classes will be conducted in the associated school in the form of a separate section, generally from about 7:00AM to 2:00PM for 5 days a week.

BENEFITS TO THE STUDENTS

- ▶ Students enrolling in this program will have an integrated & synchronised study plan.
- ▶ The studies for both Boards as well as JEE Advanced, Main and other Engineering entrance exams will be controlled and executed by VMC.
- ▶ Student would not go through two separate schedules and classes for the same subject. There will be one class each of Physics, Chemistry and Mathematics that will take care of both the fronts.
- ▶ Complete Lab and other support will be provided to the students.
- ▶ School Integrated Program would provide thrust for participation in co-curricular activities and sports, which are important for the overall personality development.

VMC AND SCHOOL WILL ALSO AIM FOR

- ▶ Proficient & confident communication ability for each & every student.
- ▶ Inculcating sports / exercises as a discipline for physical fitness which will help students throughout their life.
- ▶ Improvement of memory & IQ, mental, physical & spiritual well-being, awareness & growth with intensive yoga & meditation for each student.

NEET Mein Jeet Pakki!

VMC Ki Guarantee*

Crack NEET OR Get FEE Refund with Success Guarantee program(SGP).

SGP is the first of its kind program started by VMC to guarantee students of success in Medical competitive exam - NEET.

VMC takes pride in the quality of its academic delivery and this program gives assurance to students and their parents that once a student gets enrolled in VMC their success is guaranteed. This gives VMC a chance to continuously challenge the status quo and improve further.

We are proud to say this is the First Program that guarantees success in NEET in India!

87.5%
SUCCESS RATE IN NEET 2019

6 POINT EDGE

Rigorous Academic delivery from best in class faculty

In-depth automated performance analysis for improvement

Study material crafted by experts and access to tech resources

Pedagogy that is scientifically proven and refined through experience

Focused and high-quality Peer Group for conditioning on high competition

Exceptional Track record of success that speaks for itself

ADVANTAGE VMC

MEDICAL 2021 REGULAR CLASSROOM COURSE

For 12th Pass Students

DURATION

May/Jun 2020 to Apr 2021

COURSE IS SPECIFICALLY DESIGNED FOR STUDENTS WHO FALL IN ONE OR MORE OF THE FOLLOWING CATEGORIES.

- ▶ Students who have appeared for medical entrance exam once or more times but did not qualify.
- ▶ Students who qualified the medical entrance exam but could not manage a college of their choice.
- ▶ Students who have not appeared for the medical entrance exam even once due to class XII exams.

COURSE DESCRIPTION

Students get to learn all methods and tricks mandatory to crack the negative marking medical entrance exam.

The entire 2 year syllabus of Std XI & XII will be covered with proper depth for each concept. Syllabus shall end by February 2020.

NO OF HOURS OF CLASSROOM TEACHING

576

FREQUENCY OF CLASSES**

Classes are held four days a week

TOTAL CLASSROOM SESSIONS**

16 sessions per week

There will be daily tests, mid-module and module tests throughout the program. The Vidyamandir All India Test Series is also included with this program.

Total time for testing is more than 70 hours and does not include classroom teaching hours.

MEDICAL 2021 1-YEAR CLASSROOM COURSE

The course is 'One Year Medical Classroom Course' for the students currently in Class XII in April, 2020 who will appear in NEET in the year, 2021.

This is an unified course in which students are taught in a systematic way, based on the pattern of NEET along with Class XII Board examination.

Every topic is supported by a group of conceptual problems designed to give comprehensive understanding to the subject & improved speed through practice.

Students get to learn all methods and tricks mandatory to crack Medical Entrance Exam.

The entire course of class XII will be completed by the last week of October 2020. Exhaustive revision for class XI will take place from the first week of November 2020 up to the second week of January 2021. Students will then be given time for self-study and subsequently mock test series.

MEDICAL 2022 REGULAR CLASSROOM COURSE

DURATION

April 2020 to Mar 2022

The 2 year Medical Test preparation classroom course in Vidyamandir Classes was started in April 2018. The program has been designed and will be presided over by the Founders of VMC.

Designed to be an extremely high Result oriented program, the course will run selectively in certain VMC centres and will have a limited intake of students.

The Regular Classroom course for Medical division will run on the same lines and pedagogy as the highly successful IITJEE division in VMC.

In this two-year course, all the classes will be conducted by the Faculties trained by the founders, who have been teaching and producing some of the best results in India.

COURSE OBJECTIVES

In the Regular Classroom course, students are familiarized with the concepts and fundamentals first, in a manner, which is easy to understand. After this, application to practical situations and to complex problems is introduced, accompanied with several examples. Once the understanding of concepts is through, students are exposed to Tests followed by detailed discussion of the solutions and approach to be followed. The course is spread over a span of two years and is designed to help students build a strong foundation for their subjects. In addition to gearing up the students for NEET, this course will also cover School level syllabus and will also prepare students for other PMT exams as well.

KEY FEATURES

CONTENT BY THE FOUNDERS - The content for this course has been designed by the Founders of VMC, who have more than three decades of experience in the JEE Test prep industry and who are famous for churning Top rankers in JEE Advanced and JEE Main, year after year.

EXCELLENT FACULTY MEMBERS - All classes are conducted by a team of highly experienced faculty members from the industry, who teach under the guidance of Vidyamandir's Founders.

PEER GROUP - The peer group in the course is some of the best students competing for Medical entrance exams. This exposes the student to healthy competition, where they get motivated by hard work and success.

SAME PEDAGOGY AS IIT-JEE - The Regular Classroom course follows the exact pedagogy and quality of facilities as are offered to our IIT-JEE students. The

course comprises of a thoroughly comprehensive package which combines all the three parts of VMC's time tested strategy that has been producing IIT-JEE Rankers for more than 30 years.

STUDY MATERIAL - The Study Material, Tests, Test Series, Feedback and other facilities which are offered to Medical Batch students will be extended as it is to the Regular Classroom Course (RCC) students. All medical course students across India, will appear for the same Class tests and test series, and will get their Performance analysis as well as Relative ranking across all students enrolled in Vidyamandir classes for Medical courses.

LIMITED BATCH SIZE - The classes will be held in small groups providing personal attention to students, in state of the art classrooms to ensure conducive learning environment for our students

FOUNDATION

ARE YOU IN **CLASS IX** OR **X**, PLANNING TO BECOME AN ENGINEER/DOCTOR AND STRUGGLING WITH THIS QUESTION?

SHOULD PREPARATION FOR JEE MAIN,
JEE ADVANCED, NEET AND OTHER
ENGINEERING / MEDICAL ENTRANCE EXAMS
START IN CLASS IX OR X?

Given the intensity of competition in today's time, an early start is indispensable. Ideally, one should start the preparation for Engineering / Medical entrance exams while in Class IX but in case you could not, it is advisable for you to start preparing from Class X. There are many advantages of starting early.

- ▶ There is a significant rise in the complexity and quantity of the course curriculum of Class XI as compared to Class X or Class IX. A determined, passionate and hardworking student has a lot of time to spare in Class X or Class IX, which if preparations for Engineering / Medical entrance exams are ON, is put to correct use. Starting preparations early helps you develop the right pace and temperament, which is extremely necessary for success.
- ▶ An early START is an early END. You will finish your course for the Engineering / Medical entrance exams early and this leaves you with plenty of time to go through the various patterns and combinations of questions asked in the examination. Knowing the concepts and fundamentals is one thing, but then putting them to use while solving questions, which typically will be very complex in exams like JEE Main, JEE Advanced & NEET is an art which has to be mastered. Early start gives us that precious time to master this forte.
- ▶ Early start would allow you to see the various exams and understand the testing pattern of competitive exams. An early start enables you to practice more questions and would enhance your comfort level in various Engineering / Medical entrance exams.
- ▶ Starting early, you would be able to spread the entire course over a longer duration, thereby having more time for detailed and deeper understanding of the concepts. All this would help you in effective and efficient utilization of time.
- ▶ Early start would also open opportunities for additional learning and exam avenues like NTSE, Olympiads, KVPY and other prestigious examinations.

In nutshell, clearing Engineering / Medical entrance exams require you to thoroughly understand the core concepts and practice rigorously. Our 3 year and 4 year Foundation courses have been so designed that they cater to the needs of such early-starters who want to take the lead by starting early and benefit from the advantages and merits of these courses. Start Early Be ahead in the race.

JEE / MEDICAL

FOUNDATION COURSE (JEE / MEDICAL) 2023

3-YEAR CLASSROOM COURSE

DURATION

April 2020 to Mar 2023

This course is for students who would be going to Class X and beginning their journey towards JEE Advanced, Main, NEET and other Engineering / Medical entrance exams. The key to success in Engineering / Medical entrance exams lies in building and reinforcing basic fundamentals and concepts. In this course, not only will a student start building a strong foundation, but it will also give the student enough time to learn and practice these core concepts as the course is spread over a longer duration which makes the learning process smoother and stress free, resulting in better outcome.

With early beginnings comes an early endings, giving the student more time for mastering Advanced concepts and problems, which are a must for success in JEE Advanced / NEET and other exams. In the course, the Time advantage accorded also opens opportunities for additional learning and exam avenues like NTSE, Olympiads, KVPY and other prestigious examinations. Specialised preparation is provided for these exams and proudly, almost all students outperform their peers in schools and these specialised exams.

COURSE STRUCTURE

- ▶ This is a 3 year Classroom Course for students who would be starting their Class X.
- ▶ The Course starts in April 2020.
- ▶ In the first year, focus will be on building the basic foundation in core concepts and fundamentals in Science and Maths required for success in JEE Advanced, Main, NEET and other Engineering / Medical entrance exams. Additionally, we will be working on developing the analytical and reasoning ability of the students, which plays a critical role in attaining success in competitive examinations. Specialised focus and classes will be conducted for exams like NTSE, Olympiads and KVPY, for boosting confidence and achieving success.
- ▶ Class X Course and foundation concepts will be taught and completed by October 2020, beyond which studies for main stream Engineering or Medical preparation would start.
- ▶ Once the main stream preparation starts, students will be taken through our regular, time tested and result oriented approach towards Engineering / Medical entrance exams covering Physics, Chemistry and Mathematics / Biology.
- ▶ Besides Classroom sessions & comprehensive Study Material, Online test Series will be provided to students. This will help in assessing and improving their performance, besides introducing them to the pattern of the competitive examinations.
- ▶ After successful completion of the first phase, based upon the merit list drawn up on the basis of performance in internal assessments and tests, students will be directly enrolled into the various two year Classroom courses.

JEE / MEDICAL

FOUNDATION COURSE (JEE / MEDICAL) 2024

4-YEAR CLASSROOM COURSE

DURATION

April 2020 to Mar 2024

This course is for students who would be going to Class IX and beginning their early journey towards JEE Advanced, Main, NEET and other Engineering / Medical entrance exams. In this course, we will first work on building a strong foundation, and then work on the analytical and reasoning skills.

Since the preparation begins early, the course completes early giving the student more time for mastering Advanced concepts and problems, which are a must for success in JEE Advanced, NEET and other entrance exams. In the course, the Time advantage accorded also opens opportunities for additional learning and exam avenues like Olympiads, NTSE, KVPY and other prestigious examinations. Specialised preparation is undertaken for these exams and proudly, almost all students outperform their peers in schools and these specialised exams.

This course is a natural extension of our 3 Year Classroom Course, which within its first year of inception in 2011, has become immensely popular among the Engineering / Medical aspirants. Like our 3-Year Course, this course also aims at building sound foundation for fundamental concepts in Mathematics & Science.

In short, the course offers a win-win proposition to the student with the student getting help for school preparation, competitive exams and also developing the right skill set to tackle IIT-JEE / NEET and other Engineering / Medical exams.

COURSE STRUCTURE

- ▶ This is a 4 year Classroom Course for students who would be starting their Class IX.
- ▶ The Course starts in April 2020.
- ▶ In the first year, enhancing analytical and reasoning skills will be our focus, together with building the basic foundation in core concepts and fundamentals in Science and Maths required for success in JEE Advanced, Main, NEET and other Engineering / Medical entrance exams. Additionally, we will be working on developing the analytical and reasoning ability of the students, which plays a critical role in attaining success in competitive examinations.
- ▶ Specialised classes and focus will be conducted for exams like NTSE, Olympiads and KVPY, for boosting confidence and achieving success. The preparation for JEE Advanced, Main, NEET and other Engineering / Medical entrance exams starts from this phase only.
- ▶ In the second year, the student will move to our 3-Year Course, which will further strengthen the fundamental concepts and would also introduce the primary concepts of Engineering / Medical entrance preparation. This well spaced course structure helps the student to approach the exams in a stress free manner and improves the probability of scoring better. Preparation for the mainstream Engineering / Medical entrance would begin at this stage only.
- ▶ In the third and fourth year, the student will move to our flagship 2 year course – comprising of Phase 1 (Class XI), Phase 2 (Class XII) and the Final Step (The Revision course)
- ▶ Students will be tested at regular intervals through 3 Hour Review Tests, Test Series, Online Chapter Tests etc to judge the understanding of the concepts. Promotion to successive years is strictly based on the performance in these Tests.

Additional Advantage to 3 year , 4 year course students - **NTSE** (National Talent Search Examination) **Preparation**

ABOUT NTSE

The National Talent Search Examination (NTSE) is a National Level scholarship program in India for class X students. It is one of the oldest and most prestigious scholarship exam. It was started in 1963 to identify and honour talented students by awarding them monthly scholarships. The scholarship is given to students for pursuing courses in sciences and social sciences up to doctoral level and in professional courses like medicine and engineering up to second-degree level subject to the fulfillment of the conditions.

NTSE IS CONDUCTED IN TWO STAGES;

Stage I - Selection is done by States/UTs through the written examination and students who qualify Stage - I are eligible to appear for Stage - II

Stage II - This Examination is conducted by NCERT. The examination consist of Mental Ability Test (MAT) and Scholastic Ability Test (SAT) - same as Stage - I.

Paper	Test	No. of Questions	No. of Marks	Duration (in minutes)
Paper-I	Mental Ability Test (MAT)	100	100	120
Paper-II	Scholastic Aptitude Test (SAT)	100	100	120

** If there is any change in pattern for Stage-II examination then the same will be communicated later on through NCERT website www.ncert.nic.in. Candidates are advised to keep track of updates on NCERT website.*

There will be no negative marking in Stage-II examination.

SCHOLARSHIPS

About one thousand scholarships are awarded for different stages of education as follows:

- (a) Scholarship of Rs.1250/- per month for Class-XI to XII.
- (b) Scholarship of Rs.2000/- per month for Undergraduates and Post-graduates.
- (c) Amount of Scholarship for Ph.D. is fixed in accordance with the UGC norms.

ELIGIBILITY

All students of Class X studying in recognized schools are eligible to appear for the Stage-I examination, conducted by the States/UTs, in which the schools are located. There will be no domicile restriction.

Students registered under Open Distance Learning (ODL) will also be eligible for scholarship, provided the student is below the age of 18 years (as on 1st July of the particular year), the student is not employed and s/he is appearing in class X examination for the first time.

HOW VMC WILL HELP?

- ▶ **VMC will provide the classes for Social Science, Biology & MAT**
- ▶ **Test Series (online/offline)**
- ▶ **Comprehensive result analysis**

JEE / MEDICAL

FOUNDATION COURSE (JEE / MEDICAL) 2025

5 (1+4)-YEAR CLASSROOM COURSE

DURATION

April 2020 to Mar 2025

The course will help in creation of Strong Foundation & Preliminary Preparation for International Level Olympiads in Mathematics and Junior Sciences (National and Regional Level stages as National Standard Examination in Junior Science (NSEJS) and Regional Mathematics Olympiad (RMO) and will also help towards Excellence in School Exam

Student will get help in imbibing the fundamental of subjects and development of personality. This program will help in overall logical thinking, IQ and scientific aptitude which will be useful throughout career and introduces the basic academic structure required to excel in Scholastic & competitive exams so that in future if the student wants to prepare for Engineering or Medical it will give them a strong foundation.

EARLY STARTER ADVANTAGE

- ▶ Students who Join Early, will always have more time before the actual School & Competitive Exams as their course curriculum will finish much before the batches starting later.
- ▶ Ample time for Students to consolidate on his/her performance and for self-revision, polishing of examination temperament & removal of last moment doubts. This is very important to help a student achieve accurate jump in the performance in Scholastic & Competitive Examination.
- ▶ Student will Get more time to adapt to the quality jump in level of difficulty with better understanding as there is more time for understanding and consolidation over a longer spread academic plan
- ▶ Serious aspirants never would like to wait, the competence of the batch starting early would be very high as the brightest/serious of the lot will join at this stage thus giving you that better competition you always wanted.

JEE / MEDICAL 2020 & 2021 DISTANCE LEARNING COURSES

CORRESPONDENCE COURSES (EDGE - Practice Package)

The Correspondence Courses of Vidyamandir Classes are one of the most sought after distance learning courses for IIT-JEE / Medical preparation. The major emphasis has been given to self-study. The lessons have been designed to keep the fundamentals simple and straight-forward. Each lesson has concepts, illustrations, objective solved examples, subjective solved examples and objective worksheets.

COURSE FEATURES

- ▶ Comprehensive VMC Study Material
- ▶ Scientifically designed Study Plan
- ▶ Chapter Tests / Online Tests
- ▶ All India Test Series
- ▶ Supplementary CBSE Study Material

NATIONAL ADMISSION TEST (NAT)

VMC's

NATIONAL ADMISSION TEST (NAT)

Vidyamandir Classes since its inception in 1986 believes in imparting the best in class quality education to its students without any compromise on the needs for a great Rank in IIT JEE & other Engineering Entrance Exams. VMC was one of the first IITJEE institute to introduce an Admission test for selecting students for its IITJEE programs.

The National Admission tests are conducted several times during the year, typically in the months of October, December/January, April and June for various courses being run in Vidyamandir Classes. Basis the Grade or Class of the student, the syllabus varies but the primary focus of the test remains to judge the analytical ability of the student.

Following this till date, Vidyamandir Classes primarily selects students for its various programs on the basis of their performance in the National Admission test. Basis the performance in the test, deserving students are also offered concession in fee.

The list of various VMC centres in India is available at the last pages of this brochure. You can also visit **LOCATE A CENTER NEAR YOU** section on the website for more details.

“

You can check out National Admission Test syllabus, mode of registration, scheme of examination and other details in the handouts provided with this brochure or by visiting www.vidyamandir.com

REGISTRATION

Registration for the National Admission test can be done either by going to www.vidyamandir.com and paying online or by visiting any VMC centre.

Please note you can visit any VMC centre for registration for any NAT being conducted by VMC. Once you register for the National Admission Test, you will receive your Admit card through Email & details would be sent through SMS as well.

You can also download the Sample papers by visiting www.vidyamandir.com.

ADMISSION ASSISTANCE CELL

VMC's ADMISSION ASSISTANCE CELL

PLEASE MAKE SURE TO REMEMBER THE FOLLOWING

- ▶ Your need to paste your Passport size Photograph on the Admit card before coming to the Exam centre
- ▶ Please report at least 30 mins before the Exam
- ▶ Please make sure to bring Pens, Pencils, Eraser, Sharpener and other relevant items to the Exam centre
- ▶ Result declaration dates are mentioned in the separate handout provided with this brochure
- ▶ On your Result declaration date, please download the Result letter from the relevant link on the website, www.vidyamandir.com
- ▶ Please come on the dates mentioned in your Result letter to your nearest VMC center for taking admission
- ▶ Please remember to bring your Admit card of the National Admission test, along with other things required for enrollment. Details of Fees and everything required for your admission in VMC will be mentioned in the Result letter.
